## CHAIRMAN'S ADDRESS

Firstly I would like to thank all stakeholders involved in getting this project to this stage. Over the years many fine committees contributed to the Orchard Park development.

Today we launch this very exciting project which will help us to provide top class sporting facilities to the people of Elphin and the wider community, young and old. This development will be of enormous benefit to our members and will help to ensure that the club builds on the excellent work we have done over the past number of years.

At Elphin GAA, community is at the heart of everything we do and we aim to play a leading role in the community we serve. As a voluntary organisation, we work hard to be a positive force in the life of our members and supporters.

This project will see us continue to invest heavily so that we can face the future with confidence. Fundraising is required to enable our vision to become reality. Successful fundraising will empower our team and offer a sense of unity. It gives us that common goal to get behind a single milestone that we can reach as a group, as a team and as a community.

We are dedicated to ensuring that our family of games, and the values they represent, enrich the lives of our players, members, their families, and the community we live in. Our goal is to encourage everyone in the community to participate in GAA related activities regardless of their age or background.

We will continue to do everything we can to encourage participation at every age group and provide encouragement and involvement to players of all abilities, whilst ensuring a safe and protective environment, particularly for our children.

The GAA's values are the heart and soul of our club. In every club around the world, they are what connects us, what makes us unique and what attracts more and more players, members, volunteers and supporters. So today is an important next step for the future of our club.
